

Simon Says... with a Twist!

Simon says raise the hand that your right cerebellum sends messages to
(raise your right hand)

Put down the hand that the left side of your brain sends messages to (put
down right hand)

Simon says put both of your hands where your occipital lobe is on your head
(on the back of your head)

Simon says take the hand that your left cerebellum controls off of your head
(take your left hand off of your head)

Put the hand still on your head where your parietal lobe is (put your right
hand on top of head)

Simon says put the hand still on your head where your parietal lobe is (put
your right hand on top of your head)

Simon says put the hand controlled by the right side of your brain on your
stomach (put your left hand on your stomach)

Simon says pat your head and rub your stomach at the same time

Stop

Simon says stop

Simon says we are done with Simon says!
